

UNIVERSAL TEES™

Turn supply stops into dual shut-off stops!

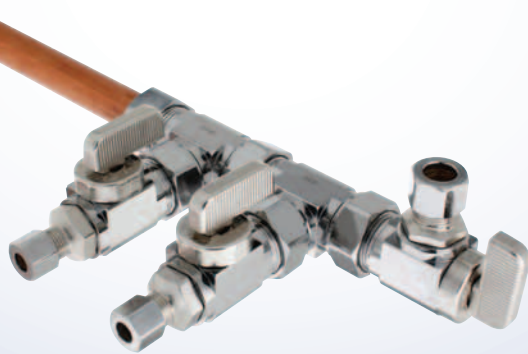

Made in Canada with American Materials

The Most Flexible Solution for Multiple Hookups

- Eliminates costly multiple dual shut-off inventory
- Simplifies installation
- Works with any manufacturer's 5/8 OD Comp (1/2 Nom.) Supply Stop

Add standard stops to Universal Tee to create custom dual shut-off stops...

...and go from there to configure multi-shut-off manifolds.

25 YEAR WARRANTY

dahl•ECO

All our Universal Tees are available in dahl•ECO versions, which average less than 0.1% lead on wetted surfaces and are made of ECO BRASS® alloy. Simply add an "E" prefix to the part number shown.

For End of Line Use Only

What can you do with Universal Tees™? Just about anything!

Carry less stock!

Two Tee Patterns let you create over 20 dual shut-off configurations; here are a few examples...

You can easily add Connecting Tees for when you need to make more than two hookups.

The Dahl Way

A single Universal Tee easily creates a dual shut-off on the hot side for the faucet and dishwasher. On the cold side, a Connecting Tee is added to supply the faucet, instant hot water dispenser and water filter.

The Old Way

The same installation without Universal Tee requires the time and effort of measuring, cutting, and installing extra fittings to create the necessary hookups.

Every Universal Tee female compression connection has a Swivel Union Nut. It helps you create the ideal riser layout.
