

TURN TO QUALITY. TURN TO DAHL.™

California / Vermont Compliant

Dahl's entire mini-ball™ product line is now available in a virtually zero lead content alloy with wetted surfaces containing less than 0.1% lead by weight. Backed by a 25 year warranty, Dahl ECO valves exceed the toughest standards for corrosion resistance, lead content and performance. Over 25 years ago Dahl pioneered the quarter turn mini-ball™ valve. Today we're still proudly manufacturing Dahl ECO right here in North America.
