WHIRLPOOL DISHWASHER ADAPTER - SUMMARY OF BRAND NAMES 220-04F-31

Female Swivel Hose x 3/8" OD Compression

- In September 2009, we featured the Female Swivel Hose elbow for new Whirlpool dishwashers
- This elbow also fits a number of other brands including Amana, Maytag, KitchenAid and Jenn-Air.
- For 3/8 OD Comp connections
- Also available less compression nut & sleeve - simply change part number to 220-04F-31LNS
- And also available with a 1/4 OD Comp connection - call for details!

IN-LINE STOPS

221-33-33

5/8 OD Comp x 5/8 OD Comp

- Sometimes your installation may give you no choice... but we will!
- For just about every straight pattern in-line stop, dahl offers an angle pattern equivalent
- Available in 1/8 through 5/8 OD size connections for a variety of pipe types

DUAL OUTLET VALVES

211-33-31-32

5/8 OD Comp x 3/8 OD Comp x 1/2 OD Comp

- Dual Outlet valves are available with a 1/2" OD Comp outlet on the branch for dishwashers and other 1/2" OD applications
- Straight or angle pattern
- Tamper-resistant operation available

DUAL OUTLET VALVES

221-04F-04-04

Female Swivel Hose x Male Hose x Male Hose

- dahl offers a variety of custom hose valve options
- Eliminate adapters with a dahl solution!
- Call us toll-free or speak to your rep today for a sample of the specialty that you would like to try!

IN-LINE STOPS

121-13-23

1/2 Fem. Solder x 1/2 Male Solder

- Male solder connections are available in both 1/2" and 3/4" valves
- No need to transition with a piece of pipe
- Sweats directly into a tee or other valve/fitting

SUPPLY STOPS FOR POLY-B

111-73-31

1/2 Poly-B x 3/8 OD Comp

- You can still get valves with 1/2" Poly-B barb connections from dahl!
- Supply stops, in-line stops, Dual Outlets and more are available
- dahl can also supply Poly-B crimp rings for these valves upon request
