CUSTOM DUAL SHUT-OFFS

33-4031-53

5/8 OD x 3/8 OD x 1/2 FIP, Eye Wash Hook-Up

- Turn to dahl for your custom Dual Shut-Off Valve requirements
- The 33-4031-53 shown here was supplied for an eye-wash hook-up
- Remember - our modular design means that specialties ship as quickly as stock items!

All Round™ STRAPPING

Various Sizes

1/2" & 3/4" widths and 20 to 24 gauge thickness

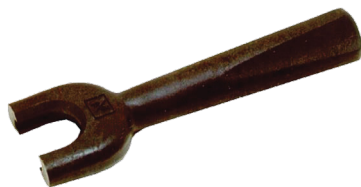

- Tired of getting cut by razor wire? Try plumber's tape that's made the Dahl way!
- dahl's careful quality control means no sharp edges!
- The wavy edges also mean uniform strength at the holes so it won't kink when you bend it
- Handy dispenser cartons are color coded for easy identification
- Available in steel, galvanized, copper and nylon-coated in 10 or 25 ft lengths

U-CLIPS

For 1/2" and 3/4" pipe

- Looking for a convenient way to hang pipe on those medium-sized jobs?
- Don't mess with pipe straps - use Dahl U-Clips!
- Put the U-Clip into the Drive Tool and hammer it in.
- Available in copper or nylon-coated

U-CLIP DRIVE TOOLS

For dahl U-Clips

- Guaranteed for life! If it breaks just return it to your local dahl rep and we will ship you a new one.
- The U-Clip Drive Tool ensures that the U-Clip is properly installed, leaving proper clearance for normal expansion and contraction of the pipe
- Use Copper or Nylon U-Clips for Copper pipe
- Use Nylon U-Clips for PEX pipe
